

Important Chapters for NEET 2020

Most Important chapters for NEET 2020 Physics

- ❖ The most important topic for NEET Physics from class 11th syllabus is Mechanics. On an average 11-12 questions are asked from this important topic in NEET every year.
- ❖ Topics such as Semi-conductors, Heat and Thermodynamics, Laws of Motion, Kinematics, Work Energy & Power and Rotational Motion are also important and you need to practice thoroughly these important topics to score well in Physics in your NEET exam.
- ❖ Modern Physics, from class 12th syllabus, is the most important topic for NEET.
- ❖ Current Electricity & Magnetism, Electrostatics and Optics are also very important chapters for NEET 2020 and you should thoroughly prepare and practise these topics.

Most Important chapters for NEET 2020 Chemistry

Organic Chemistry chapters are important for NEET. This section carries more weightage in NEET exam. Your fundamentals and conceptual understanding in all the topics of Organic Chemistry should be essentially very strong. You should also practice the following important topics for NEET Chemistry thoroughly to develop your test-taking abilities and scoring well in the NEET exam:

- ❖ Equilibrium
- ❖ Chemical Bonding and Molecular structure
- ❖ Electrochemistry
- ❖ Chemical Kinetics
- ❖ Coordination Compounds

- ❖ Aldehydes, Ketones and Carboxylic Acids
- ❖ S, P, D and F Block Elements
- ❖ Hydrocarbons
- ❖ Atomic structure

Most Important chapters for NEET 2020 Biology

Ecology is the most important topic for NEET Biology. On an average, 12-15 questions are asked in the NEET exam from this topic every year. This is an easy and the most scoring topic in biology.

- ❖ Human Physiology and Plant physiology are equally important topics for NEET 2020. Together around 20-25 questions are asked from these two topics in NEET exam. These most important topics demand clarity of concept, as more application-based questions are asked in the exam. You should prepare and practice these important topics thoroughly.
- ❖ Genetics & Evolution is another very important chapter for NEET. Evolution is very easy but you need to understand and practice the concepts in Genetics as much as possible.
- ❖ Cell structure & Function chapter also carries a good weightage in the NEET exam and as such is an important chapter.
- ❖ Another very important chapter for NEET is Biotechnology. This is a small topic, easy to understand but quite scoring.
